	Marketing Text	Do you work in academia? Are you juggling multiple projects, systems, and administrative tasks? If you'd like to discover practical tips and tricks for using Excel, Power Query, and other digital tools, and learn how to make AI your assistant rather than your competitor, this Blended Intensive Program is designed especially for you. A 5-day program will cover various topics from digital literacy and etiquette to cultural aspects in a multilingual and multicultural environment. You will have the privilege to attend a course delivered by a guest lecturer from the University of Porto, see the treasures of Lithuanian culture, as well as participate in scientific workshops 'Science on Stage'.
	Objectives	• Learning Excel tricks to make your office life easier • Making AI work for you – not against you • Learning Power Query and data management secrets • Digital literacy and etiquette in multicultural academic environments • A glimpse at Lithuanian cultural heritage • Networking, experience-sharing, multicultural communication, and building new partnerships
	Learning Outcomes	• Increased confidence in using digital tools in an academic setting • Gained practical knowledge on smart ways to empower AI, and use various data sources • Improved understanding of Excel and AI as tools to deal with day-to-day tasks in a smarter way • New pathways to create ideas and build partnerships
Language		English
