

MOBILITY FUNDING UNDER ERASMUS+ KA171 PROGRAMME: STUDENT MOBILITY WITH THIRD COUNTRIES NOT ASSOCIATED WITH THE PROGRAMME IN THE ACADEMIC YEAR 2022/23, 2023/24, 2024/25

1. The University provides funding as an individual grant contribution and travel grant to the participant selected in the recruitment procedure at the following rates:

	Individual grant contribution (towards subsistence costs in host country)	Travel grant
Student mobility from the third country not associated with programme to Poland	800 EUR per month	As per distance calculator*
Student mobility from Poland to the third country not associated with programme	700 EUR per month	As per distance calculator*

*http://ec.europa.eu/des/education_culture/tools/distance_en.htm

2. Students/Ph.D. students are also eligible for travel grants. The amount of the travel grant depends on the distance, which the participant must travel from mobility origin to mobility destination. To calculate the distance, the University uses the online tool on the EC's website:

*http://ec.europa.eu/des/education_culture/tools/distance_en.htm

Travel grant will be provided at the following rates:

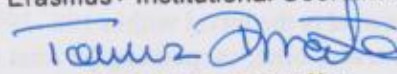

Distance from origin to destination	Rate	Rate for the travel by the ecological means of transport (green travel**)
Od 10 do 99 km	23 €	-
od 100 do 499 km	180 €	210 €
od 500 do 1 999 km	275 €	320 €
od 2 000 do 2 999 km	360 €	410 €
od 3 000 do 3 999 km	530 €	610 €
od 4 000 do 7 999 km	820 €	-
≥8 000 km	1500 €	-

** *green travel* is the travel within 100 -3999 km distance done via ecological means of transport, that it is: **bus, train, bike, carpooling** (at least two people travelling together in a car belonging to one of them on the same route and for the same purpose). At least 51% of the whole route needs to be done via ecological means of transport.

3. The total mobility grant is calculated by multiplying the number of months by the rate applicable to a given country. In the case of an incomplete month, the grant amount will be calculated by multiplying the number of days in the incomplete month by 1/30 (one thirtieth) of the grant amount.
4. It is not possible to decrease or increase the level of grants within the same project to the amount announced by the National Agency.
5. Participant will receive 90% of the grant amount stipulated in the agreement. Submission of an obligatory individual on-line EU survey will be treated as the participant's application for the payment of the remainder of the grant amount.
6. The University guarantees payment of grants for the maximum period stipulated in the agreement.
7. If the difference in the number of days of student mobility confirmed by the host institution on *The Confirmation of Erasmus study period* is more than 5 days when compared to the study period stipulated in the agreement, participants will be required to **reimburse** the grant amount proportionally.
8. If the mobility period confirmed by the host institution is shorter by exactly 5 days or less compared to the period stipulated in the agreement or in an annex to the agreement, participants will not be required to reimburse any part of the grant amount.
9. The total mobility period abroad (mobility capital) at a given study programme under Erasmus+ may not be longer than 12 months or 24 months in the case of long-cycle degree programme.
10. It is not possible to extend the mobility period.
11. The University reserves the right to amend the principles governing mobility under Erasmus+ programme following decisions made by the European Commission and the Erasmus+ National Agency during the mobility period.
